AMG210C MEDIA CONVERTER 19-INCH RACK CHASSIS

Commercial Ethernet Solutions

The AMG210C Media Converter Rack allows up to 12 Commercial Mini Media Converters to be mounted into a 19" rack quickly and easily.
The ultra low 1U profile allows for very high rack density saving valuable space within the typical 19inch rack environment.

OVERVIEW

The AMG210C rack chassis supports all non-PoE models from the AMG210M Commerical Mini Media Converter range including 100Mb, 1Gb and 10Gb models.

Each rack supports up to 12 mini media converters and occupies only 1U of rack space within the equipment cabinet offering the highest media converter rack denisty within the industry for space restricted installations.

The rack ships as standard with dual power supplies to provide redundancy and supports hot-swappable replacement of both Media Converters and Power Supplies.

The included dual redundant power supplies support full range 90-264V_{AC} input for international operation.

Individual AMG210M series mini media converters need to be ordered separately.

FEATURES

- Up to 12 slots for Commercial Mini Media Converters
